BRAZILIAN LUXURY DESIGN

FIORI COLLECTION | DESIGN ESTÚDIO RIVA

BEM-VINDO AO MUNDO RIVA

WELCOME TO RIVA'S WORLD

Criada na Serra Gaúcha, a Riva conquistou o mundo ao unir o melhor do design brasileiro com um padrão excepcional de qualidade. Reconhecida internacionalmente por seus objetos de aço inoxidável, prata e ouro 24K, a Riva valoriza a criação artesanal e o rigor de um processo de produção que envolve múltiplas etapas manuais. Cada peça passa por mãos habilidosas, garantindo que detalhes minuciosos e acabamentos perfeitos representem a excelência do design nacional.

Founded in Serra Gaúcha, Riva has conquered the world by combining the best of Brazilian design with an exceptional standard of quality. Internationally recognized for its stainless steel, silver, and 24K gold objects, Riva values artisanal craftsmanship and the precision of a production process that involves multiple manual stages. Each piece is carefully crafted by skilled hands, ensuring intricate details and flawless finishes that embody the excellence of national design.

PERFEIÇÃO EM CADA DETALHE

PERFECTION IN EVERY DETAIL

Guiada pelos pilares de inovação, elegância e inteligência, a Riva transforma materiais nobres em objetos atemporais que combinam funcionalidade com uma estética impecável. Cada criação ultrapassa os limites do tradicional, revelando-se como pura arte contemporânea que reflete o compromisso da Riva em celebrar o design brasileiro com uma visão arrojada. É essa dedicação que faz da Riva uma marca única e valorizada, reconhecida por transformar objetos cotidianos em peças de coleção.

Guided by the pillars of innovation, elegance, and intelligence, Riva transforms noble materials into timeless objects that blend functionality with impeccable aesthetics. Each creation pushes the boundaries of tradition, emerging as pure contemporary art that reflects Riva's commitment to celebrating Brazilian design with a bold vision. This dedication makes Riva a unique and cherished brand, renowned for transforming everyday objects into collectible masterpieces.

BRASILIDADE & PROCESSO ARTESANAL

BRAZILIAN SPIRIT & ARTISANAL PROCESS

A alma brasileira move a Riva, com sua multiplicidade de sotaques e expressões artísticas. A Riva expressa essa brasilidade em sua forma mais sofisticada, traduzindo nos objetos a alma vibrante e plural que define o país. A Riva celebra o calor humano, a riqueza cultural e a capacidade única de transformar o cotidiano em momentos extraordinários.

Na Riva, os objetos nascem da combinação entre tradição e modernidade, refletindo a essência do design brasileiro em objetos que unem o urbano ao natural, o atemporal às tendências. As criações são uma homenagem ao talento dos artesãos locais, que imprimem em cada nuance o cuidado e a paixão pelo trabalho manual.

O aço inoxidável, a prata e o ouro 24k são transformados pelas mãos dos nossos artesãos em peças que são projetadas para serem eternizadas. O uso de aço inox 18/10 garante uma estética refinada e uma durabilidade excepcional, com resistência à corrosão e proteção contra o desgaste.

The Brazilian soul moves Riva, with its multitude of accents and artistic expressions. Riva embodies this essence in its most sophisticated form, translating the vibrant and diverse spirit that defines the country into its creations. Riva celebrates human warmth, cultural richness, and the unique ability to transform everyday life into extraordinary moments.

At Riva, objects are born from the fusion of tradition and modernity, reflecting the essence of Brazilian design in pieces that unite the urban with the natural, the timeless with contemporary trends. These creations are a tribute to the talent of local artisans, who imbue every detail with care and passion for handcrafted work.

Stainless steel, silver, and 24K gold are transformed by our artisans into pieces designed to last forever. The use of 18/10 stainless steel ensures refined aesthetics and exceptional durability, providing resistance to corrosion and protection against wear.

A Riva resgata uma essência que foi deixada de lado com a industrialização, dos tempos em que os artesãos dedicavam horas de seus dias com atenção exclusiva aos detalhes – aqueles que nem todos enxergam, mas que todos sentem. Com isso, dita o luxo de forma singular, impregnado de autenticidade e reverência ao trabalho artesanal, preservando uma conexão rara entre o humano e o objeto.

Riva revives an essence lost with industrialization—a time when artisans dedicated hours of their days to meticulous attention to details, the kind not always seen but always felt. Through this, Riva redefines luxury in a singular way, infused with authenticity and reverence for craftsmanship, preserving a rare connection between the human and the object.

RUBENS SIMÕES: A PAIXÃO QUE MOLDOU A RIVA

THE PASSION THAT SHAPED RIVA

A história da Riva nasce da paixão incansável de Rubens Simões pelo design e pela criação de objetos que exalam luxo e contemporaneidade. Inspirado desde jovem por seu pai, Roberto Simões — renomado no mercado de presentes de prata —, Rubens cresceu em meio a uma cultura de elegância e refinamento. Decidido a expandir esses valores, ele se dedicou ao estudo de Economia na Universidade da Califórnia, em Los Angeles (UCLA), e de Desenho Industrial na PUC-Rio, além de se especializar em cutelaria nas mais prestigiadas fábricas europeias. Essa formação diversificada foi a base para transformar sua visão inovadora em realidade.

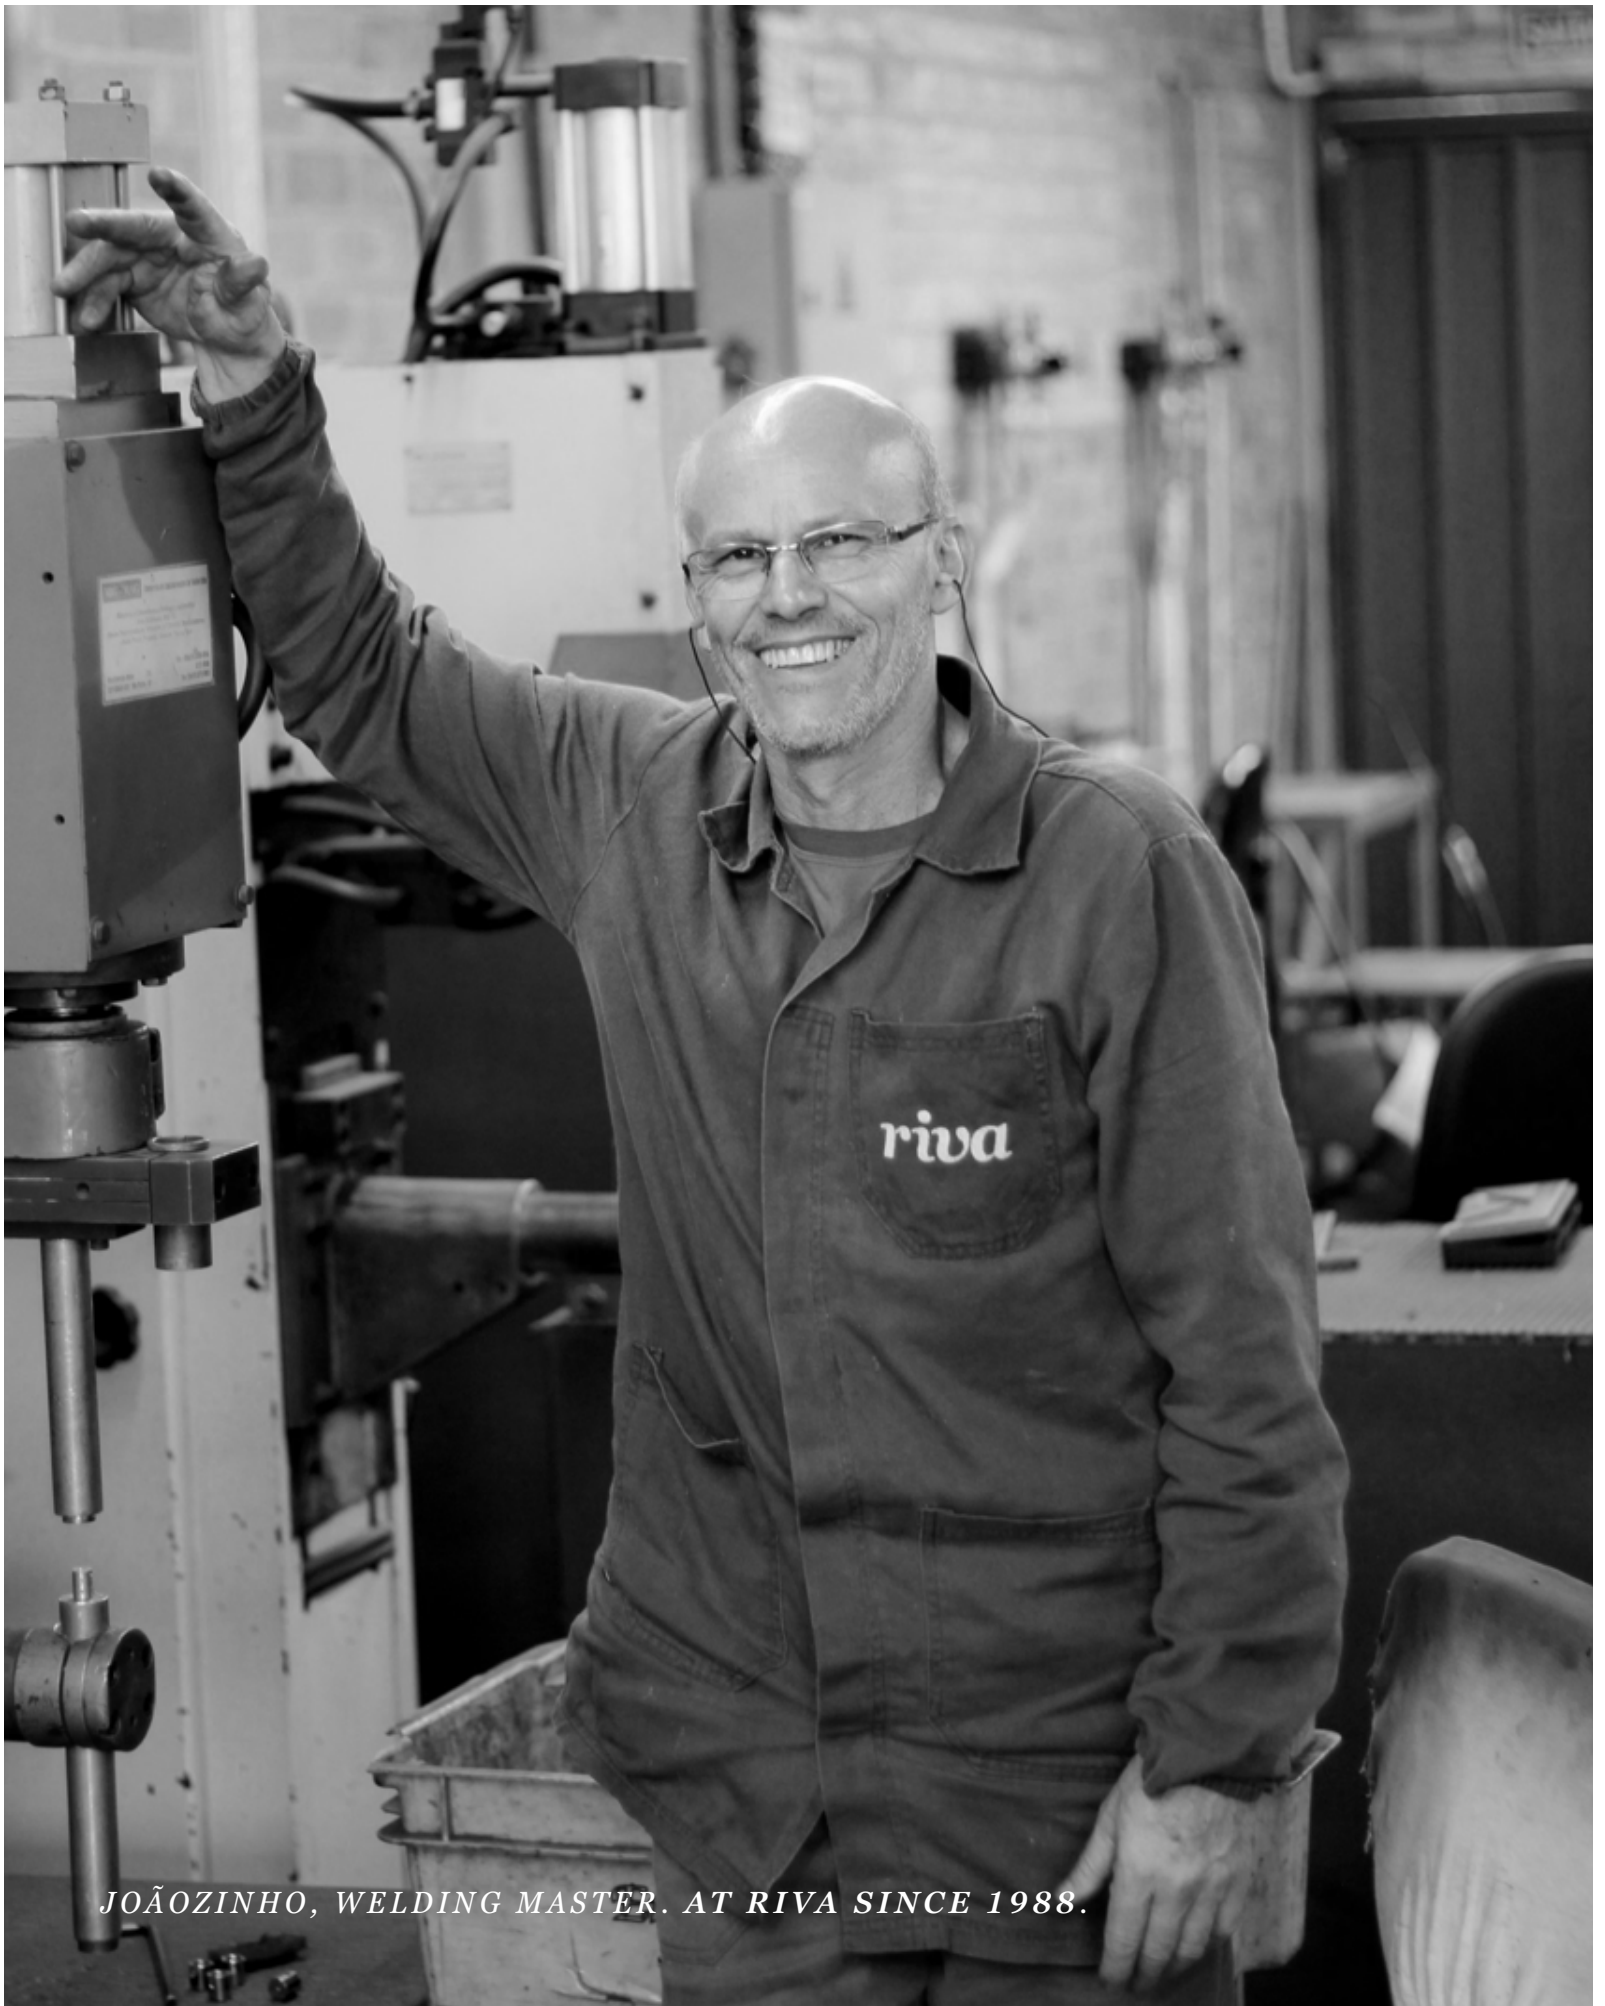

Com um espírito incansável e uma energia que permeia todos os setores da Riva, Rubens não é apenas o fundador, mas o coração da grife. Desde a concepção dos primeiros objetos, na Serra Gaúcha, até a expansão internacional da Riva, ele esteve envolvido em cada etapa do processo criativo e produtivo, sempre com um olhar detalhista e rigoroso. Rubens lidera o Estúdio Riva com maestria, onde coordena uma equipe multidisciplinar para criar peças que unem estética e excelência técnica, garantindo que cada objeto carregue a assinatura única da marca.

A Riva se consolidou como uma referência no design de luxo, marcada pela personalidade de Rubens e seu compromisso em ultrapassar os limites da criação. Em cada coleção, a marca celebra o encontro entre arte e funcionalidade, com objetos que cativam e elevam o cotidiano a um novo patamar de elegância. Guiada pela dedicação visionária de Rubens, a Riva continua a redefinir o design brasileiro.

Riva's story is rooted in the tireless passion of Rubens Simões for design and the creation of objects that exude luxury and modernity. Inspired from a young age by his father, Roberto Simões — a renowned figure in the silver giftware market — Rubens grew up immersed in a culture of elegance and refinement. Determined to expand these values, he pursued Economics at the University of California, Los Angeles (UCLA), Industrial Design at PUC-Rio, and specialized in cutlery craftsmanship at Europe's most prestigious factories. This diverse education laid the foundation for transforming his innovative vision into reality.

With tireless energy and a spirit that permeates all facets of Riva, Rubens is not just the founder but the soul of the brand. From the creation of the first objects in Serra Gaúcha to Riva's international expansion, he has been involved in every step of the creative and production process, always with a meticulous and rigorous approach. Rubens masterfully leads the Riva Studio, where he directs a multidisciplinary team to craft pieces that combine aesthetics and technical excellence, ensuring that each object carries the brand's unique signature.

Riva has established itself as a benchmark in luxury design, marked by Rubens' personality and his commitment to pushing the boundaries of creation. In every collection, the brand celebrates the union of art and functionality, presenting objects that captivate and elevate everyday life to a new level of elegance. Guided by Rubens' visionary dedication, Riva continues to redefine Brazilian design.

JOÃOZINHO, WELDING MASTER. AT RIVA SINCE 1988.

RECONHECIMENTO QUE TRANSCENDE FRONTEIRAS

RECOGNITION THAT TRANSCENDS BORDERS

A Riva tem presença destacada em renomadas lojas de decoração e design ao redor do mundo. Os objetos da grife são encontrados em mais de 40 países, incluindo Estados Unidos, Canadá, Portugal, Líbano, Turquia, Japão, Kuwait, Emirados Árabes Unidos e Arábia Saudita.

Riva has a prominent presence in renowned decoration and design stores around the world. The brand's objects are found in over 40 countries, including the United States, Canada, Portugal, Lebanon, Turkey, Japan, Kuwait, the United Arab Emirates, and Saudi Arabia.

MATÉRIA PRIMA.

A base da matéria-prima da Riva é o aço inoxidável 18/10, um selo de qualidade que define as peças da marca. Esse número representa a composição do metal, com 18% de cromo e aproximadamente 10% de níquel. Essa combinação cria uma camada de óxido de cromo na superfície do aço inox quando em contato com o oxigênio, conferindo uma resistência excepcional à corrosão.

O polimento cuidadoso de cada objeto é fundamental para garantir uma superfície mais lisa e, consequentemente, um maior contato com o ar. Isso resulta em uma resistência incrível à oxidação. Na Riva, a excelência no setor de polimento é primordial, pois assegura que todas as peças tenham uma proteção superior contra o processo de oxidação.

RAW MATERIAL.

The foundation of Riva's raw material is 18/10 stainless steel, a quality seal that defines the brand's pieces. This number represents the metal composition, with 18% chromium and approximately 10% nickel. This combination creates a layer of chromium oxide on the surface of the stainless steel when in contact with oxygen, providing exceptional corrosion resistance.

Careful polishing of each object is essential to ensure a smoother surface and, consequently, increased exposure to air. This results in incredible resistance to oxidation. At Riva, excellence in the polishing sector is paramount, as it ensures that all pieces have superior protection against the oxidation process.

COMPROMISSO AMBIENTAL.

A sustentabilidade é intrínseca à essência da Riva. Nossa matéria-prima carrega o selo "verde" de responsabilidade ambiental, proveniente da produção do aço inox 18/10 em uma usina alimentada por carvão vegetal de florestas 100% renováveis, fornecido por parceiros especializados.

A escolha consciente de utilizar uma matéria-prima produzida de maneira ecologicamente correta, socialmente justa e economicamente viável reflete o compromisso inabalável da Riva com a sustentabilidade e respeito ao meio ambiente.

ENVIRONMENTAL COMMITMENT.

Sustainability is intrinsic to Riva's essence. Our raw material bears the 'green' seal of environmental responsibility, originating from the production of 18/10 stainless steel in a plant powered by charcoal from 100% renewable forests, supplied by specialized partners.

The conscious decision to use raw material produced in an ecologically sound, socially just, and economically viable manner reflects Riva's unwavering commitment to sustainability and environmental respect.

RECHAUDS.

ESPECIALISTA EM DESIGN, ESPECIALISTA EM
DESIGN SPECIALIST, BRIE CHEESE EXPERT.

O Rechaud Brie foi desenvolvido com a tecnologia do disco de alumínio difusor de calor, que aquece o queijo uniformemente, sem que escorra pelas bordas.

The Rechaud Brie was developed with the technology of the aluminum heat diffuser disc, which heats the cheese evenly, without running down the edges.

**QUALIDADE RIVA. RIVA QUALITY.**

O sistema térmico dos Food Containers da Riva foi desenvolvido em nossas próprias oficinas e é semelhante ao das garrafas térmicas: com duas paredes, uma interna e outra externa. Entre as camadas há um isolamento especial que mantém o alimento quente por um longo tempo.

The thermic system of Riva's Food Container was developed inside our workshops and it is similar to a thermal bottle: with two walls, one inside and another one outside. Between them there is a special insulating that keeps the food warm for a long time.

SET 12 / 12 PIECE SET

A Riva oferece talheres e utensílios em sets de 12 unidades, preservando o alto design da marca com um custo mais acessível, graças à quantidade de peças e a economia na embalagem. Esses conjuntos são embalados juntos, sem caixas individuais, sendo ideais para revendas e para a composição de serviços em hotéis e restaurantes.

Riva offers cutlery and utensils in sets of 12, maintaining the brand's high-end design at a more accessible cost, thanks to the quantity of pieces and savings on packaging. These sets are packed together without individual boxes, making them ideal for resale and for composing services in hotels and restaurants.

MANTENHA O BRILHO
DOS SEUS OBJETOS
COM RIVACREAM

KEEP THE SHINE OF YOUR OBJECTS WITH RIVACREAM

A Riva oferece aos seus clientes um produto de limpeza com a mesma qualidade de seus objetos, o Rivacream. Ele devolve o brilho das peças, inclusive nos vidros. O Rivacream está disponível em embalagem individual ou em caixa com 12 unidades.

In order to offer our customers a cleaning product with the same quality of our objects, Riva developed Rivacream. It gives back the shine of the pieces, including glass. The Rivacream is available in individual packaging or in boxes of 12 units.

1.89 kg (L/N) - 1.92 kg (B/G)

COMO USAR. HOW TO USE.

A utilização do Rivacream é bem simples. Recomenda-se que o produto seja espalhado sobre a peça, deixe agir e antes que o produto comece a secar, retire o excesso com o auxílio de uma flanela macia polindo de leve para dar brilho. O produto em contato com a superfície é suficiente para eliminar manchas.

Cleaning using Rivacream is quite simple. We recommend to spread the product over the object, let react and before the product begins to dry, remove the excess with the aid of a soft flannel, buffing lightly to shine. The product in contact with the surface is enough to remove stains.

CUIDADOS. CARE.

Para manter os objetos da Riva sempre impecáveis, é recomendado lavá-los com água morna e secá-los imediatamente usando uma flanela macia. Não utilize esponjas ou palhas de aço. Não mergulhe as peças na água ou deixe sobras de alimentos por um período longo, pois isto pode resultar em manchas e danos às peças. Os objetos não devem ser lavados em máquinas de lavar louças.

To keep our Riva products like new for a long time, wash them with warm water and dry immediately using a soft cloth. Do not use sponges or steel wool. Do not soak them in water or leave food scraps for a long time as this may cause staining and damage the pieces. The objects should not be washed in the dishwasher.

FINAL TOUCH

TOQUE FINAL

Matéria-prima de alta qualidade, design exclusivo e polimento manual. Os objetos Riva nascem de um processo minucioso e, para garantir que a experiência seja impecável até o último detalhe, a embalagem recebe o mesmo cuidado.

Os itens são embalados com carinho. Ao abrir a caixa, o cliente encontra sua peça perfeita e protegida, com um cartão assinado por quem a embalou, além de um booklet com dicas de conservação, novidades, prêmios e os detalhes que fazem da Riva uma referência no mundo do luxo.

Riva objects are crafted through a meticulous process, where every detail is carefully considered. To ensure a flawless experience, even the packaging receives the same level of attention.

Each item is wrapped with care. Upon opening the box, the customer discovers a perfectly protected piece, accompanied by a personally signed card from the person who packed it and a booklet with care instructions, the latest news, awards, and the unique details that make Riva a true luxury icon.

ÍCONE DOS FAVORITOS

FAVORITES ICON

Os objetos marcados com o Coração Riva são os mais vendidos e os favoritos dos Rivalovers. Se já conquistaram tantos apaixonados pelo design Riva, merecem um espaço na sua coleção.

Acrescente agora à sua lista de desejos!

ACABAMENTOS DE JOALHERIA

JEWEL-LIKE FINISHES

Na Riva todos os processos são tratados com a precisão e o cuidado de uma joalheria. Feitos em nossa fábrica, os acabamentos em prata, nickel black e ouro 24k elevam cada peça a um novo patamar de sofisticação, trazendo luxo e durabilidade excepcionais para transformar utensílios em joias.

At Riva, every process is treated with the precision and care of fine jewelry. Crafted in our factory, finishes in silver, nickel black, and 24k gold elevate each piece to a new level of sophistication, bringing exceptional luxury and durability, transforming utensils into true treasures.

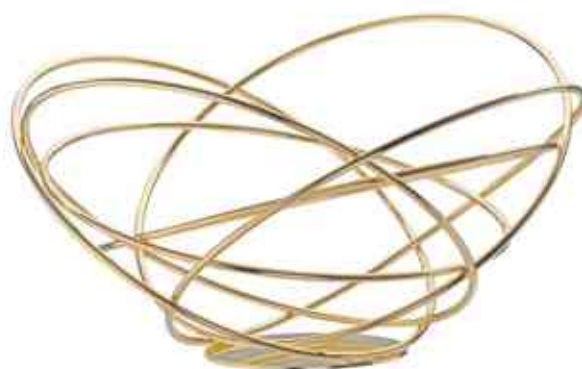

PRATA

A linha prata da Riva passa por um processo minucioso que segue aos mais rigorosos padrões de qualidade, atendendo às exigências dos principais mercados internacionais. Esse procedimento envolve a aplicação de 20 microns de níquel antes de receber uma camada de 12 microns de prata, resultando em um acabamento impecável, brilhante e de longevidade incomparável.

SILVER

The Riva silver line undergoes a meticulous process that adheres to the most stringent quality standards, meeting the demands of major international markets. This procedure involves the application of 20 microns of nickel before receiving a 12-micron layer of silver, resulting in an impeccable, brilliant finish with unparalleled longevity.

OURO 24K

O conceito de '24 quilates' transcende a mera definição para representar a pureza, realeza e exclusividade do ouro mais refinado. Na Riva, essa expressão se torna realidade nas oficinas da marca, onde cada peça é minuciosamente banhada a ouro, conferindo-lhe um caráter singular e uma dedicação artesanal incomparável. Esse processo infunde nos objetos uma beleza inigualável, enriquecida pelo legado da maestria artesanal.

24K GOLD

The concept of '24 carats' goes beyond mere definition to symbolize the purity, royalty, and exclusivity of the finest gold. At Riva, this expression comes to life in the brand's workshops, where each piece is meticulously gold-plated, imparting a unique character and unparalleled artisanal dedication. This process infuses the objects with unparalleled beauty, enriched by the legacy of craftsmanship.

NICKEL BLACK

Esse refinado revestimento de níquel preto, minuciosamente aplicado sobre o aço inoxidável, é uma criação exclusiva da Riva. Desenvolvido com precisão, adiciona uma dimensão única de elegância às consagradas peças da marca. O acabamento preto ressalta a essência do luxo contemporâneo, confere profundidade aos contornos, realça as linhas do design e oferece um contraste excepcional.

This refined black nickel coating, meticulously applied to stainless steel, is an exclusive creation of Riva. Developed with precision, it adds a unique dimension of elegance to the brand's acclaimed pieces. The black finish highlights the essence of contemporary luxury, lending depth to the contours, enhancing the design lines, and providing an exceptional contrast.

FROZEN

O exclusivo acabamento Frozen é um processo artesanal desenvolvido pela Riva, para adquirir um toque aveludado. Cada peça é tratada para criar essa textura, que proporciona uma aparência impecável e que elimina preocupações com riscos indesejados que possam surgir com o uso. Após esse tratamento especial, as peças são submetidas ao processo tradicional de banho, podendo ser prateadas ou douradas com ouro 24K.

The unique Frozen finish is an artisanal process developed by Riva to achieve a velvety touch. Each piece is treated to create this texture, which provides an impeccable appearance and eliminates concerns about unwanted scratches that may arise from use. After this special treatment, the pieces undergo the traditional plating process, which can be done in silver or gold plated with 24K gold.

VIDRO

A Riva escolhe minuciosamente vidros brasileiros e importados, conhecidos por sua excepcional qualidade e clareza cristalina, livres de chumbo, assegurando o compromisso com a sustentabilidade ambiental. Os vidros importados carregam selo cristalino de Veneza e são produzidos através do sopro manual, resultando em uma transparência impecável.

Cada pequena imperfeição, incluindo as delicadas bolhas que podem se formar, não são consideradas um defeito. Essas características são evidências da habilidade artesanal envolvida no processo de sopro do vidro, que confere autenticidade e personalidade a cada peça, realçando a exclusividade e singularidade do método.

GLASS

Riva carefully selects Brazilian and imported glasses, renowned for their exceptional quality and crystal-clear transparency, free of lead, ensuring a commitment to environmental sustainability. The imported glasses bear the crystal seal of Venice and are meticulously blown by hand, resulting in impeccable transparency. Each minor imperfection, including the delicate bubbles that may appear, is not considered a flaw. Instead, these features are evidence of the artisanal skill involved in the delicate glass-blowing process, which imparts authenticity and personality to each piece, enhancing the exclusivity and uniqueness of the method.

PORCELANA

A porcelana dos rechauds e refratários Riva são resistentes a altas e baixas temperaturas. Podem ser usadas no freezer ou em fornos convencionais e microondas. É recomendável evitar variações bruscas de temperatura, pois o choque térmico pode causar quebra. Não deve ser utilizada em forno preaquecido, nem exposta diretamente à chama do fogão elétrico, aquecedor ou grelha.

PORCELAIN

The porcelain of Riva rechauds and refractories are resistant to high and low temperatures and can be used in freezer or microwave and conventional ovens. It is recommended to avoid quick changes in temperature, because the thermal shock can cause breakage. Do not use in the preheated oven or expose the refractory directly to the hob, grill or heater.

PEDRAS BRASILEIRAS

A coleção Pedras Brasileiras explora os objetos com estilo contemporâneo, que se destacam pelo contraste do aço inox com a delicadeza das pedras ametista, quartzo e pirita. Nos Porta-Incensos e Caixas Riviera, tanto como nas Jarras, Réchauds Banho Maria e Food Containers da coleção as pedras dão um toque de elegância nos objetos.

BRAZILIAN STONES

The Brazilian rocks explores objects with contemporary style, highlighted by the contrast of stainless steel with the delicacy of amethyst, quartz and pyrite stones. In the Incense Dispensers and Riviera Boxes, as well as in the Jars, Double Boiler Rechauds and Food Containers of the collection, the stones add a touch of elegance to the objects.

MADEIRA

A Riva é mestra na arte de mesclar materiais, e a escolha das madeiras jacarandá, nogueira e teca reflete essa expertise. O jacarandá, conhecido por seus tons ricos e texturas marcantes, confere um toque luxuoso e nobre. A nogueira, com sua tonalidade quente e veios únicos, adiciona uma sofisticação atemporal. Por sua vez, a teca, caracterizada por sua versatilidade e resistência excepcionais, é a escolha perfeita para enfrentar os desafios do tempo e do uso.

WOOD

Riva is a master in the art of blending materials, and the selection of jacarandá, walnut, and teak woods reflects this expertise. Jacarandá, known for its rich tones and distinctive textures, adds a luxurious and noble touch. Walnut, with its warm hue and unique grains, introduces timeless sophistication. Teak, characterized by its exceptional versatility and resilience, is the perfect choice to withstand the challenges of time and use.
